

Name	reference picture	Features
<b>common (c102a)</b>		<p>voltage(V):220 power(W): 3600</p> <ol style="list-style-type: none"> <li>1: 12L capacity boiler with 4 steam nozzles</li> <li>2: rotary pump for commercial use</li> <li>3. pre-brewing / pre-infusing)</li> <li>4. cup-counter function, PID control,</li> <li>5,Delay power switch function</li> <li>6,Failure warning system</li> <li>8,Temperature control</li> <li>9,Input username, contact number</li> <li>10: LCD &amp; brightness control</li> <li>11: Full metal body</li> <li>12: Support multiple water intake methods: bottle water or purified water</li> <li>13: can set flow quantity</li> </ol>
<b>CM2280</b>		<p>11L Parent boiler +1L +1L Extraction boiler  Pull rod type steam control lever  Silent Italian Rotary pump ,ODE valve  Pre-Soak function (time adjustable)  Self-cleaning</p>
<b>KT-3</b>		<p>voltage(V):220 power(W): 6200</p> <p>3 copper boiler  12L steam boiler+1L*2 coffee boiler  Coffee Output: 240 cups/h  Screen Size : 5-inch  Max working pressure 0.16 Mpa Max water inlet pressure 0.65 Mpa</p>

<p><b>DZ-2A</b></p>		<p>voltage(V):220 power(W): 3700  1: 10.6L stainless steel boiler  2. hot water quantity: 30L/hour  3. coffee quantity: 240cup/hour</p>
<p><b>Q2</b></p>		<p>voltage(V):220 power(W): 3500  1: 12L stainless steel boiler  2. E61 handpiece imported from Italy  3. Pull rod type steam, with rear light display,  4.Double pressure gauge,  5. Extraction real-time reading display  6.The internal imported solenoid valve, water pump and flowmeter are all imported from Italy</p>
<p><b>E100</b></p>		<p>Boiler capacity: threeo boiler ,10L for steam, 1.2L for coffee.1.2L for coffee.  voltage(V):220-240  power(W): 4350w  4 level PID control system  PTC heating, Saturated brewing head  Pre-brewing function  58MM filter mesh  Material: Stainless steel</p>
<p><b>E110</b></p>		<p>Boiler capacity: threeo boiler ,8L for steam, 2.2L for coffee.2.2L for coffee.  voltage(V):220-240  power(W): 6000w  Dual PID control system  Pre-brewing function  58MM filter mesh  Material: Stainless steel</p>

<p>Byond manual control(two group)</p>		<p>Boiler capacity: two boiler ,8L for steam, 4L for coffee  voltage(V):220-240  power(W): 6000w  Independent dual boiler system  Dual PID control system  Steam and brewing temperature can be adjustable  Commercial rotary pump  dual boiler temperature Liquid crystal display system  Saturated bubble head  Pre-brewing system  Manual and automatic can be optional  Whole machine support color customization</p>
<p>G3</p>		<p>Boiler capacity: two boiler ,8L for steam, 4L for coffee  voltage(V):220-240  power(W): 6000w  Independent dual boiler system  Dual PID control system  Steam and brewing temperature can be adjustable  Commercial rotary pump  dual boiler temperature Liquid crystal display system  Saturated bubble head  Pre-brewing system  Manual and automatic can be optional  Whole machine support color customization</p>
<p>leaf style</p>		<p>Boiler capacity: two boiler ,8L for steam, 4L for coffee  voltage(V):220-240  power(W): 6000w  Independent dual boiler system  Dual PID control system  Steam and brewing temperature can be adjustable  Commercial rotary pump  dual boiler temperature Liquid crystal display system  Saturated bubble head  Pre-brewing system  Manual and automatic can be optional  Whole machine support color customization</p>

desktop  
style

Boiler capacity: three boiler ,4L for steam, 2L for coffee+2L for coffee

voltage(V):220-240

power(W): 8400w

The connecting pipe has heat compensation function, and the temperature is accurate $\pm 0.5^{\circ}\text{C}$

Multi boiler system, steam and coffee independent  
LCD screen show steam temperature and extraction temperature

Bring cup washing device and waste water dish

Electronic waterproof button, double PID temperature control intelligent heating

Dual PID temperature control

Built in segmentation extraction procedures, you can make coffee and tea
